PDS vs PGSA: Annual (virtual) trivia challenge

Who has the biggest brains?! The annual PDS vs PGSA trivia challenge went virtual this year. The PDS managed to stay just ahead of the PGSA and retain the cup! Well done, post docs! The overall winner was **Brittney Bonner**. PGSA first place winner was **Denver Britto** and second place went to Rui Wang. On the PDS side, **Brya Matthews** won first place and **Sandy Lau** won second place. Congrats to all the winners!

Article writing: the art of (scientific) storytelling

Our last workshop of the year promises to be a good one. With over 100 publications in various forms – scientific articles, books, theses, films – [Dr Tanisha Jowsey](#) brings a wealth of experience and expertise to the researcher's world of publishing. She has learned a great many things about what to do, what to avoid, and how to get stuff done. In this seminar Tanisha will share four stories about writing and publishing scientific articles. **Tuesday 7th Dec, 2021, 2pm.** Zoom link [here](#). Meeting ID: 993 7143 6475, Passcode: 049783.

Image analysis workshop online

If you missed the BIRU image analysis workshop, no worries, it is available online. In this webinar, **Jacqui Ross** and **Richard Yulo** demonstrate software packages that can be used to solve some image analysis problems. **Ratish Kurian** introduces the virtual machines that the BIRU have set up. Find the webinar [here](#). Thanks to Jacqui, Richard and Ratish for their time.

Happiest of holidays from the PDS. A special thanks to everyone who volunteered their time with us this year and our generous sponsors. Enjoy some well-deserved time off. Travel safely and we are looking forward to seeing you next year happy, healthy, and hopefully, in person!
